## CAL 300 ACOUSTIC CALIBRATOR

CE

## **DESCRIPTION**

Standard noise source at high stability in level and in frequency, CL300 acoustic calibrator is essentialy dedicated to check microphone sensitivity and to calibrate sound level meters and acoustic measurement systems.

CAL300 sends a nominal acoustic pressure level of 94 dB or 114 dB at the frequency of 1000 Hz, it corresponds to class 1 of NF EN 60942 : 2003 and CEI 60942 : 2003 standards.

Designed to remain compatible with microphones of different diameters, it is supplied with an adapter ring for a microphone of  $\frac{1}{2}$  inch diameter.

## **TECHNICAL FEATURES**

| Main level of acoustic pressure       | 94 dB ± 0.25 dB   |
|---------------------------------------|---|
| Additional level of acoustic pressure | 114 dB ± 0.25dB   |
| Main frequency                        | 1000 Hz ± 2 Hz  |
| Distortion                            | THD < 2%  |
| Authotization for calibration         | Green or stabilized orange light  |
| Transmission time                     | 1 minute minimum  |
| Standards                             | NF EN 60942 : 2003 – CEI 60942 : 2003   |
| Accuracy                              | Class 1   |
| CE marking                            | As per European Directive 2004/108/CEE and Standard product   |
| Compatible microphones                | 1 inch microphone without adapter (according CEI 61094-4 standard) ½ inch with BC12 ring 10 mm microphone with BC10 ring 3/8 inch microphone with BC38 ring Other microphones with suitable rings |
| Standard ambient conditions           | 23 °C – 50% RH – 1013 hPa   |
| Operating conditions                  | 0 °C to +50 °C / 25% to 90% RH / 650 hPa at 1080 hPa  |
| Power supply                          | 2 alkaline batteries – 1,5 V CEI : AAA – LR03 type  |
| Autonomy at 20 °C                     | More than 1500 calibrations   |
| Storage                               | From 0°C to +60 °C  |
| Overall dimensions                    | Length: 185 mm – Width: 35 mm – Thickness: 31 mm  |
| Weight                                | 118 g (with batteries)  |
|                                       |   |
